Preface

The Bachelor of Vocation (B.Voc) Honours in Fashion Design and Management is a comprehensive, skill-integrated undergraduate program designed to cultivate creative, technical, and managerial competencies essential for thriving in the dynamic world of fashion. This program, grounded in industry-aligned pedagogy, blends artistic expression with practical expertise and entrepreneurial vision to develop professionals equipped to meet the evolving demands of the global fashion industry.

Structured across six academic semesters followed by two semesters dedicated to Apprenticeship or Research Internship, the curriculum offers a unique balance between foundational knowledge and specialized training. Beginning with core design principles such as Elements of Design, Basic Sewing Techniques, and Surface Embellishment, students gradually advance into areas like Fashion Illustration, Pattern Making, Draping, and Garment Construction.

The program expands its scope in later semesters to cover Fashion Marketing, Merchandising, Export Documentation, and Apparel Production, reflecting the interdisciplinary nature of fashion as both a creative and commercial enterprise. Courses in Computer-Aided Design, Smart Textiles, and Sustainability align students with emerging technologies and global trends. Electives like Handloom Textiles of Kerala, Indian Traditional Crafts, and World Art Appreciation deepen cultural sensitivity and contextual understanding.

A strong emphasis is placed on practical learning through On-the-Job Training (OJT) in every semester, hands-on studio work, and Internships that bridge academic knowledge with real-world application. In the final year, students may choose between a full-fledged industry apprenticeship or an intensive research internship, promoting either professional immersion or academic inquiry.

Additionally, modules on Venture Management, Boutique Management, and New Product Development foster entrepreneurial skills, encouraging students to not just join the industry but lead it through innovation and strategic thinking.

This curriculum nurtures versatile, industry-ready graduates capable of pursuing careers as fashion designers, stylists, merchandisers, entrepreneurs, and researchers in the vibrant field of fashion and textiles.

Mahatma Gandhi University Kottayam

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT				
Programme	B. VOC. (HONOURS) FASHION DESIGN AND MANAGEMENT				
Course Name	BASIC SEWING TECHNIQUES				
Type of Course	SDC				
Course Code	MG1SDCFDM100				
Course Level	100				
Course Summary	This course introduces industrial sewing techniques, covering machine operation, safety, hand stitches, seam types, and decorative fullness methods. Students gain practical skills thr.ough sample preparation of stitches, seams, pockets, plackets, and fasteners. Emphasis is placed on foundational garment construction techniques essential for the apparel and fashion industry.

Syllabus

Mahatma Gandhi University Kottayam

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT				
Programme	B.VOC. (HONOURS) FASHION DESIGN AND MANAGEMENT				
Course Name	INTRODUCTION TO TEXTILES AND FASHION				
Type of Course	SDC				
Course Code	MG2SDCFDM100				
Course Level	100				
Course Summary	This course provides a foundational understanding of textiles and fashion. It covers textile fibres, yarns, fabric construction methods such as knitting and non-wovens, and various textile finishes including preparatory, aesthetic, and functional types. Additionally, students learn essential fashion terminology, the fashion cycle, and theories influencing fashion trends and development.				
Semester	2	Credits		4	Total Hours
Course Details	Learning Approach	Lecture	Practical	OJT	
		4	0	0	
Pre- requisites, if any	NIL				

COURSE OUTCOMES (CO)

CO No.	Expected Course Outcome	Learning Domains	PO No
1	Understand the classification, properties, and types of textile fibres and yarns.	U	1, 2, 10
2	Identify and describe different fabric construction methods like weaving, knitting, and non-woven.	U	1,2,10
3	Classify and evaluate various textile finishes based on durability, function, and application.	A	1,2,6,10
4	Interpret and apply fashion terminology, fashion cycles, and fashion theories in design discussions.	A	1,4,5,10

MGU-B.VOC. (HONOURS)

Syllabus

Mahatma Gandhi University Kottayam

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT				
Programme	B.VOC. (HONOURS) FASHION DESIGN AND MANAGEMENT				
Course Name	PATTERN MAKING AND GARMENT CONSTRUCTION - LADIES WEAR				
Type of Course	SDC				
Course Code	MG2SDCFDM102				
Course Level	100				
Course Summary	This course imparts essential skills in sewing, garment construction, and finishing techniques. Students gain practical experience in fabric layout, cutting, fitting, and neckline finishes. They draft and construct garments like Kameez, Saree Blouse, Churidar, and skirts, enhancing their precision, creativity, and problem-solving for professional garment making.

MGU-B.VOC. (HONOURS)

Syllabus

Mahatma Gandhi University Kottayam

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT			
Programme	B.VOC. (HONOURS) FASHION DESIGN AND MANAGEMENT			
Course Name	DRAPING			
Type of Course	SDC			
Course Code	MG3SDCFDM201			
Course Level	200			
Course Summary	This course on draping covers fundamental techniques such as preparing fabrics, manipulating darts (including French, centre front, straight side, and mid-armhole darts), and creating various bodice styles like surplice, princess, and cowl fronts. It also explores skirt variations with yokes and gathers, providing a comprehensive foundation in garment construction through hands-on practice with dress forms.			
Semester	3	Credits		4

Mahatma Gandhi University Kottayam

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT				
Programme	B.VOC. (HONOURS) FASHION DESIGN AND MANAGEMENT				
Course Name	INTERNSHIP				
Type of Course	INT				
Course Code	MG4INTFDM200				
Course Level	200				
Course Summary	The internship is designed to provide students with real-world exposure and hands-on experience in professional environments aligned with their skill domain and major area of study. It acts as a vital link between academic learning and industry application, allowing students to apply theoretical concepts to practical situations. Through active engagement in industry, research institutions, or academic labs, students gain insights into organizational operations, workplace practices, and professional expectations. The internship also supports the development of key professional competencies such as communication, teamwork, time management, and ethical responsibility. Additionally, it encourages critical thinking, reflection, and self-assessment, helping students identify personal strengths and explore potential career pathways. Students shall undergo the internship in a Firm, Industry, or Organization, or engage in Training in Labs with faculty and researchers, or other Higher Education or Research Institutions, ensuring alignment with their area of academic specialization. COURSE CONTENT

After the completion of the fourth semester, the students will have to undergo a minimum of two weeks internship programme. It will be in an apparel exporting firm specialized in men's or children's wear to understand various steps and techniques involved in exporting. Students can choose a firm in India or abroad for their internship.

The college will provide a certificate to prove their identity. A member of the faculty will supervise the student during the internship. Firms having a minimum of two years exposure in apparel export can be selected. At the end of the internship, the students should prepare a comprehensive report. The report and the specimens of the work done by the student should be attested by the organization.

Students should also produce a certificate of internship from the organization. All the above details should be submitted to the Head of the Department for evaluation. The report will be evaluated by the external and internal examiners appointed by the University. Delayed, incomplete submissions will be considered as per the University rules.

MGU-B.VOC. (HONOURS)

COURSE CONTENT

This course focuses on enabling students to independently conceptualize, research, and develop an innovative **fashion-related product** through a structured project-based approach. The aim is to apply the knowledge and skills acquired throughout the program to create a **market-relevant/innovative product**—which could include apparel, accessories, textiles, footwear, or fashion-tech innovations.

Students will follow a complete product development cycle, beginning with problem identification, market analysis, and a review of literature to understand current trends, gaps, and opportunities. They will then proceed to ideation and concept development, supported by detailed design explorations, material sourcing, and technical planning. This will be followed by prototype creation, testing, and refinement based on feedback.

Throughout the course, students will be expected to maintain detailed documentation including a project proposal, research methodology, specification sheet, cost sheet, production planning. The final submission will include both a **finished product** and a **comprehensive project report**, culminating in a presentation and viva voce.

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT
Programme	B.VOC.(HONOURS) FASHION DESIGN AND MANAGEMENT
Course Name	APPRENTICESHIP
Type of Course	APP
Course Code	MG7APPFDM400
Course Level	400
Course Summary	As an integral component of the B.Voc. Honours degree programme, students are required to complete a structured apprenticeship or work-integrated learning programme in collaboration with relevant industries, organizations, or institutions. This component, spanning a duration of 280 days, carries 28 academic credits and is compulsory in the student's designated skill domain. It is designed to enhance industry preparedness by reinforcing academic knowledge through sustained, domain-relevant practical experience. The apprenticeship offers students the opportunity to engage directly with real-world professional environments, enabling them to apply domain-specific competencies, gain exposure to industry-standard tools and practices, and participate meaningfully in ongoing operations and projects. This extended, immersive experience serves to bridge the gap between theoretical learning and professional expectations, thereby fostering critical skills for career development and employability. To ensure the effectiveness, academic relevance, and accountability of the apprenticeship: ● Each student will be assigned an academic mentor from the parent institution and an industry supervisor from the host organization. ● Students are required to maintain a weekly activity logbook, which must be regularly reviewed and signed by the industry supervisor. ● Monthly progress reports will be submitted to and reviewed by the academic mentor in consultation with the industry supervisor.

	• Mid-term and final evaluations will be conducted based on a combination of employer feedback, student outputs/deliverables, and academic performance metrics. • The institution will conduct site visits, virtual check-ins, or regular follow-ups to ensure student engagement, address issues promptly, and uphold the quality of the apprenticeship experience. This structured apprenticeship is a critical step in preparing students for the dynamic demands of the professional world, ensuring that their academic journey culminates in a well-rounded and industry-aligned skill set.

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT				
Programme	B.VOC.(HONOURS) FASHION DESIGN AND MANAGEMENT				
Course Name	RESEARCH INTERNSHIP				
Type of Course	RIN				
Course Code	MG7RINFDM400				
Course Level	400				
Couse Summary	As an integral requirement of the B.Voc. Honours with Research degree programme, the Research Internship is designed to provide students with hands-on exposure to real-world research practices in their designated skill domain. This component carries 20 academic credits and extends over a duration of 200 days. The internship must be undertaken in collaboration with a research organization, industry, or university department, under the mentorship of a qualified research guide. The primary aim of this internship is to engage students in industry-linked research projects that allow them to apply theoretical knowledge to practical, domain-specific problems. Students are expected to work on meaningful research inquiries, contribute to data collection and analysis, develop critical thinking and problem-solving skills, and enhance their communication and documentation abilities. In addition to the research internship, students must earn 8 credits thrs.ough Skill Development Courses (SDCs), specifically chosen for their research orientation, thereby reinforcing their academic and practical foundation. This component not only contributes significantly to the academic rigor of the Honours with Research degree but also ensures a seamless transition from classroom learning to workplace research, preparing students for advanced studies or professional roles in their respective domains.

Faculty/ Discipline	FACULTY OF SCIENCE / FASHION DESIGN AND MANAGEMENT
Programme	B.VOC (HONOURS) FASHION DESIGN AND MANAGEMENT
Course Name	ON -THE - JOB TRAINING
Type of Course	SDC
Course Summary	On-the-Job Training (OJT) is designed to equip students with practical skills, workplace discipline, and industry exposure by actively engaging them in real- world professional environments. Conducted in collaboration with firms, industries, research institutions, or higher education establishments, OJT enables students to understand industry standards, apply academic knowledge, and perform job-specific tasks using contemporary tools and practices. The training must be undertaken in the student's own skill domain, aligned with the major area of study in their undergraduate program, to ensure relevance and coherence with their academic and career goals. The program also fosters essential workplace competencies such as communication, responsibility, adaptability, and teamwork. Furthermore, it offers students a platform for career exploration and networking, helping them evaluate
